DIV. OF OIL, GAS & MINING

Dear Mr. Lamb:

This letter is to inform you that the Decision Record (DR) and Finding of no Significant Impacts (FONSI) were signed as of January 25, 2016, in association with the Determination of NEPA Adequacy (DNA) for your proposed Lincoln Pit expansion located in Township 8 South, Range 1 West, Section 22, Salt Lake Base & Meridian, serialized UTU-89459.

Your next step in this process is to prepare and submit a comprehensive engineered expansion design modification of the existing mine plan along with any appropriate maps, cross-sections, drawings, explanations, etc., for our review. Remember that this mine plan should clearly show how your mine expansion proposal would be in compliance with the VRM III requirements in the BLM land use plan for this area.

Once we have completed our review and approved your mine plan modification and you have obtained approval from any other federal, state or local agencies that require permitting or approval for this type of activity, Kilgore would be approved to request the sale of mineral materials from the new location.

If you have any questions or concerns with this matter please contact Larry Garahana, Salt Lake Field Office Geologist at (801) 977-4371.

Sincerely,

Rebecca A. Hotze
Field Manager
